

AMENDMENTS to the CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claims 1 - 21 (cancelled)

22 (currently amended): A method for preserving battery life for a portable networked client device, said method comprising ~~the steps of:~~

providing a web server with at least two sets of web objects for a web page, including at least one set of web objects previously designated as ~~essential~~ advertisement objects, ~~and including at least one set of web objects previously designated as non-advertisement objects;~~

receiving by said web server a battery condition from a networked client device;

~~selecting only said essential web objects if said battery condition is low, otherwise~~

~~selecting all said web objects in both said essential set and said advertisement set;~~
~~and~~

~~responsive to said battery condition being low, transmitting said selected non-~~
~~advertisement~~ web objects from said web server to said networked client device,
and avoiding incremental battery energy consumption of said networked client
device to process, execute and display said advertisement web objects by
restricting download of said advertisement web objects to said networked client
device so that remaining battery life is extended for said networked client device
~~under conditions of low battery.~~

23. (cancelled)

24 (currently amended): The method as set forth in Claim 22 wherein said restricting download ~~step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low~~ comprises restricting ~~from transmission~~ animated graphical web objects.

25 (currently amended): The method as set forth in Claim 22 wherein said restricting download ~~step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low~~ comprises restricting ~~from transmission~~ video segment ~~and clip~~ web objects.

26 (currently amended): The method as set forth in Claim 22 wherein said restricting download ~~step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low~~ comprises restricting ~~from transmission~~ sound and audio web objects.

27 (currently amended): The method as set forth in Claim 22 wherein said restricting download ~~step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low~~ comprises restricting ~~from transmission~~ multicolor web objects.

Claims 28 - 39 (cancelled).
